### Overview of warehousing services:

- 27/7;
- Warehouse area is 8000 m<sup>2</sup>;
- 10 m height;
- Controlled temperature range from +5°C to +25° C;
- fire fighting system ESFR.

### Safety:

34 video cameras provide safe monitoring in the warehouse and on parking.

### Overview of warehousing services:

- Transshipment and food storage;
- Transshipment of the excise goods;
- Customs warehouse 180 m<sup>2</sup> area.

### The insurance policy includes:

- Liability for damages arising as a result of loading and unloading – 450 000 euro;
- The responsibility for entrusted property – 4 000 000 euro;
- Customs security – 35 000 euro.

On demand in the warehouse there are possibilities to produce labels, in any language, in necessary amount and with any text, as well as affix excise stamps.

Packing and unpacking of the boxes is provided with special equipment.

There are different forklifts in the warehouse for work with different goods:

- Forklift with lifting capacity 8 tons;
- Forklift with lifting capacity 3.5 tons;
- Electric forklift with lifting capacity 1.5 – 1.8 tonnes.

We can transship heavy loads in case of preadvise.

A large number of ramps with convenient access increase speed of loading and unloading.

There is also an increased ramp width (width 420 cm, height of 440 cm).

There is also possibility to use the mobile hydraulic ramp with carrying capacity to 10 tons.
